METHODIST CHURCH.

Mr. WILLIAM ISBESTER, of the WYMAN STREET, **RELIABLE PANTS COMPANY,**

begs to announce to the people of Stoughton and vicinity that he is prepared to execute his work promptly and on time and guarantee the fit and finish equal to any tailor made suit.

Ladies tailoring will receive careful attention in the future as in the past, and we shall be able to make skirts as well as jackets in the spring. Give us a trial and you will be perfectly satisfied.

I have procured the services of a graduate of one of the best tailoring schools in Boston, and we shall be pleased to see our old customers and many new ones.

Come in and see samples, and see if our prices are not as low as the lowest. Our fit and finish speak for themselves, as we are burning the midnight oil, while other tailors are taking a vacation.

Have You Made any New Resolutions this Year?

if you have, one of them ought to be to have your eyes tested, and fitted properly to glasses. This picking out glasses haphazard, was all right in the beginning of the 19th century, but in this age of science and modern instruments a careful and scientific diagnosis of the eye is necessary to reveal all latent defects.

Do you know the sight is rarely alike in both eyes, and nine tenths of the people have defective vision. Notwithstanding this, Will you instead of wearing glasses *work* and *blink* your life and nervous energy away, will you force your eyes to overwork? Will you neglect them when they cry for help, abuse them year after year, until at middle life you are compelled to seek aid, perhaps to find your vision impaired beyond repair. A little glass aid at the proper time will save you a world of trouble and preserve your vision for old age, when you begin to rely more and more on printed books or Newspapers for companionship. You should

Heed Nature's Danger Signals.

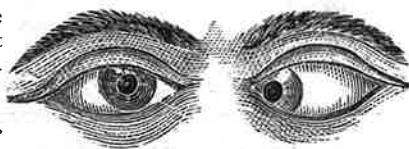

If your eyes blur at times, hurt and smart after reading, if there are frequent headaches, if the muscles around the eyes are drawing wrinkles and crows feet you should consult our Optician for they are Nature's Danger Signals.

OPTICIAN. **H. W. DARLING,** JEWELER.

Gentlemen.—I cannot speak too highly of the monument that you have placed in my lot at Unity Cemetery, North Easton.

Am greatly pleased with the work and material which has been

highly com-
plimented
by many
friends who
have seen it.

I consider the lettering far superior to any I have seen.

I would advise all persons requiring a monument or stone of any kind, to interview you before purchasing elsewhere.
